Saffir-Simpson Hurricane Scale

Category One Winds 74-95 mph

Storm surge generally 4-5 ft above normal. No real damage to building structures.

Category Two Winds 96-110 mph

Storm surge generally 6-8 feet above normal. Some roofing material, door, and window damage of buildings.

Category Three Winds 111-130 mph

Storm surge generally 9-12 ft above normal. Some structural damage to small residences and utility buildings with a minor amount of curtainwall failures.

Category Four Winds 131-155 mph

Storm surge generally 13-18 ft above normal. More extensive curtainwall failures with some complete roof structure failures on small residences.

Category Five Winds greater than 155 mph

Storm surge generally greater than 18 ft above normal. Complete roof failure on many residences and industrial buildings. Some complete building failures with small utility buildings blown over or away.
