WALKER	3,953	3,387	567	85.7%
<b>SYSTEM TOTALS</b>	<b>65,684</b>	<b>52,550</b>	<b>13,134</b>	<b>80.0%</b>

Dates are subject to change and will be updated each day. The projection for each area is from today up to the listed date. Please keep in mind that crews are working in all counties. The areas in which generation and transmission are available can receive power more quickly. Even in those counties where power has not yet been restored, our crews are working to remove trees and rebuild lines, so that those areas can receive power when generation and transmission are available.

Generation (The plants at which electricity is produced)

Transmission (The high-voltage grid that transports electricity long distances)

Distribution (Sam Houston EC's system, which delivers electricity to our members)
